# Indian Aviation Market

India is expected to overtake China and the United States to become the world's third-largest air passenger market by 2030, according to the International Air Transport Association (IATA). The rising demand has also accelerated fleet expansion, with the number of airplanes projected to reach 1,100 by 2027.

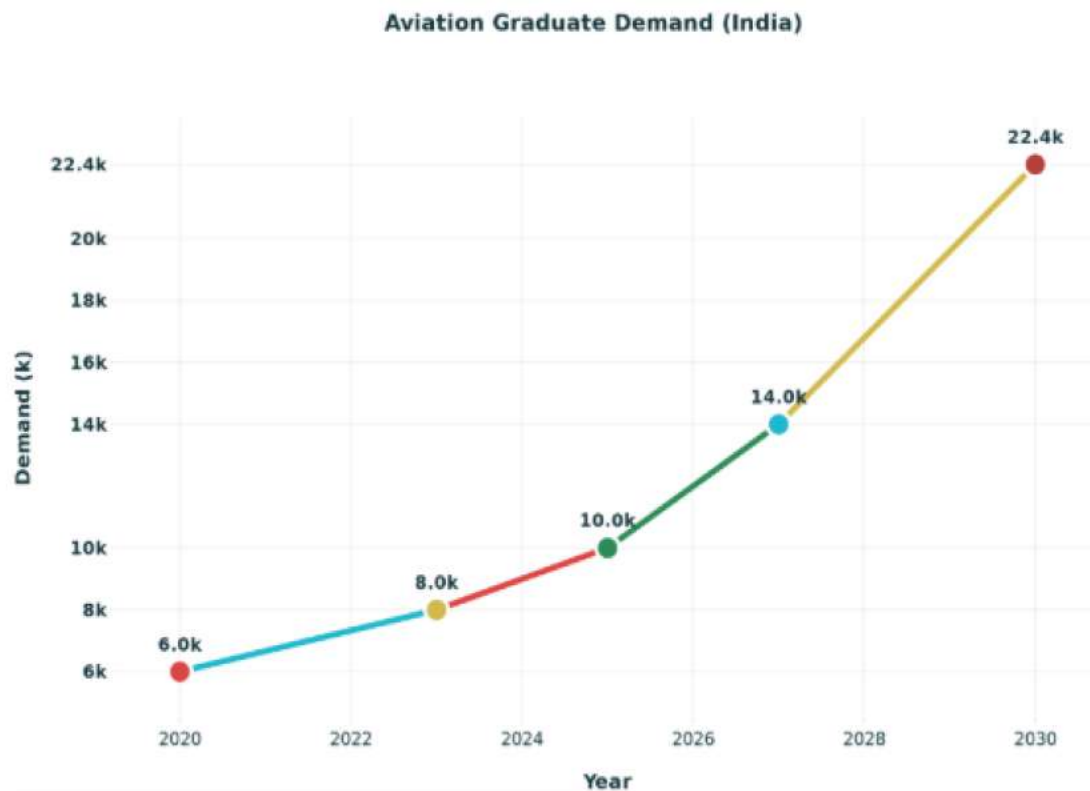

Notes: \*Until July 2025, Source: DGCA

# Market Demand For The Course

This data highlights the significant growth in demand for aviation education and careers in India, making it a highly attractive field for students and professionals.
