BBA

Global Business

4 Years | Full-Time | Industry-Integrated

*Get **Life-Ready** with **Inspiria***

Managing Businesses Beyond Borders

The Global Business course is a 4 year course that primarily prepares students to get ready for the world of tomorrow and develop a global mind-set in order to be successful in business. The department of BBA Global Business believes in teaching its students about the global dynamics and interplay between political, economical, social and human conditions and how one can use it to leverage one's own business venture. The opportunities that lead to an expansion of a business on a truly global scale can only be harnessed if the students understand the macroeconomic phenomenons like global trade, inflation, employment, but also with geo-political factors like trade wars, trade barriers, supply logistics, regime change, etc... In this regard, the students are taught in a multi disciplinary manner about the various interplay of these forces on the global market.
